

Where are you spending most of the night?

HERE or HERE ?

Interrupted sleep doesn't have to be part of getting older!

Frequent bathroom visits can mean something more serious, including **bladder conditions, urinary tract infection...** even **prostate obstructions/cancer or diabetes.**

Aria Health's Division of Urology provides advanced, comprehensive diagnostic and treatment technologies for male AND female incontinence using modern techniques and minimally invasive procedures.

Take back your restful nights!

Call our urological specialists, located in Bucks County and Philadelphia at **215-698-7333**
